

NATIONAL SCIENCE FOUNDATION  
OFFICE OF THE DIRECTOR  
WASHINGTON 25, D.C.

DD/R # 437-62

August 6, 1962

Dr. Herbert Scoville, Jr.  
2430 E Street, N. W.  
Washington 25, D. C.

Dear Dr. Scoville:

Enclosed is a very lucid and timely report by Dr. James R. Killian, Jr. on a subject which merits serious and widespread attention. As you know, Dr. Killian speaks on this subject from a background of very considerable experience. I hope that his cogent words will be read thoughtfully by all who are in a position to help improve this situation, lest the Federal Government continue to find itself short of the trained and experienced manpower required to carry out its responsibilities.

Sincerely yours,

*Alan T. Waterman*

Director

Enclosure

*(HS) The first part of this is a  
monumental bore, - but the latter  
part is interesting in that Killian  
says MINDY is the solution, period.  
The latter is a bit derogatory.*
